

You're invited.

Creating Multi-Touch Books and Courses for iPad

It's easier than ever to unleash the full potential of iPad in your classroom. Come to this hands-on event and learn how to use iBooks Author to create your own interactive books and learning materials. You'll also experience using iTunes U to organize your teaching materials into courses that students can access anywhere and anytime.

- Discover how you can create Multi-Touch books tailored to your lesson and class level.
- Get tips for organizing your book content, then use a professionally designed template to get started.
- Learn how to add Multi-Touch magic to your book with widgets, and customize it with text, video, audio, a glossary, and more.
- Find out what you'll need to begin creating courses and get tips for organizing your course materials.
- Add posts to your course, include interactive elements, and carry-on discussions within the course.
- Explore options for sharing your course—with just your students or with the world.

You'll leave the session ready to begin creating interactive materials on any topic, as well as engaging courses that provide a customized learning experience.

Details

March 2, 2015

8:30 a.m.-11:30 a.m.

Berks County Intermediate Unit

1111 Commons Blvd.

Reading, PA 19612
